

February 21st, 2013

The Honorable John Fleming, M.D.
4th District, Louisiana
416 Cannon House Office Building
Washington, DC 20515

Dear Representative Fleming,

I am writing today on behalf of the 560,000 members of AMAC, the Association of Mature American Citizens, to offer our strong support for H.R. 38, the "Seniors' Tax Simplification Act of 2013." This timely legislation is not just great for American seniors but is a positive first step in simplifying the tax code in America.

AMAC – representing both currently retired and older working citizens – greatly appreciates and values any bill that looks to simplify the tax code for hard-working Mature Americans. In an era of increased Federal tax regulations and growing revenue reporting standards, American seniors and prospective retirees should not be unnecessarily burdened with administrative government paperwork that is complicated, confusing, and/or redundant.

AMAC firmly believes that the "Seniors' Tax Simplification Act of 2013" is the exact type of common-sense legislation that should be generated by elected members of Congress. H.R. 38 will make it easier for older Americans to file their taxes quickly and efficiently. It will not cost the U.S. taxpayer, or use Federal revenue to implement. And finally, it can serve as a practical, real-world model for wider simplification of the U.S. tax code.

Thanks to your innovative thinking, leadership, and concerned attention, AMAC is extremely proud to support H.R. 38, the "Seniors' Tax Simplification Act of 2013," a critical piece of timely legislation that will go a long way in improving and easing the lives of Mature Americans, especially around tax-time. We wholeheartedly encourage complete passage of H.R. 38 by the U.S. Congress as quickly as possible.

Sincerely,
Dan Weber
President and Founder of AMAC
